

*I was asked to supply a reference for Graham Harris and I have no hesitation in doing so, in fact it comes with my 100% recommendation for a remarkable person who has given me memories that will last a lifetime.*

*I engaged World Yachting to deliver my new Sweden Yacht 38 'Serando' from the factory in Sweden to Antigua. What impressed me the most was how much they thoroughly checked everything out prior to leaving. There were a few minor problems encountered on the way with the electrical system which were rectified in Madeira much to the experience of Graham and his crew and their rapport with the Sweden Yacht factory. The whole episode of having my yacht delivered was carried out in a very professional manner and at no time did I have any worries.*

*In April 2000 I again contacted Graham to deliver 'Kappa' a beautiful but old Buccanon 52 which had sadly laid neglected for so many years. I accompanied Graham on that delivery bringing with me 5 friends who made up the crew.*

*What an adventure with every day a new problem to be sorted out but we got over them (including a near sinking and being rescued by the coast guard). 3 months later we completed the delivery and throughout the whole dealing with Graham I have utmost respect for his knowledge, his friendliness and professionalism no matter what was thrown at him.*

*Kans Georg Andersen, Skien Norway*
