

*This year World Yachting delivered our yacht 'Hunger Strike' from La Rochelle in France to Puerto Rico in the Canary Islands.*

*The yacht arrived much to my surprise immaculately presented and clean. I say to my surprise because looking at the weather on TV that Graham and his crew were experiencing and then reading the well documented Log Book afterwards, they did have a horrendous voyage which even included hurricane force winds and sand storms as they approached Gran Canaria. Well done Graham, all the crew and thank you World Yachting.*
